EDUCATION

Diploma / Computer Programming, Georgian@ILAC, Toronto, ON.

Sep 2022 – Apr 2024

BA in International Relations, Unisul, Florianópolis, Brazil.

Aug 2012 – Dec 2015

EXPERIENCE

Career Services Assistant (Computer Programming Lab)

Aug 2023 – Present

Georgian@ILAC

Toronto

- Spearheaded the launch of Georgian@ILAC's inaugural Computer Programming Lab, independently developing foundational processes to enhance student skill sets and facilitate portfolio building.
- Develop and lead workshops, delivering presentations to students to foster essential skills such as proficiency in version control software, frameworks, and algorithms.
- Offered individualized support to students on programming projects through one-on-one sessions and peer programming, aiding in troubleshooting, concept comprehension, skill enhancement, and portfolio development.

Parliamentary Assistant - Digital Strategist
Legislative Assembly of the State of Santa Catarina
Florianópolis, Brazil

Feb 2020 – Sep 2022

- Created and designed digital content, including graphics and videos, to enhance the Congressman's online presence and increase engagement with constituents.
- Handled the Congressman's social media profiles, informing the public of public policies, important bills and promoting key initiatives.
- Contributed to the Congressman's re-election campaign, witnessing an increase in votes from 38,547 to 71,185 during my tenure.

Customer Success Consultant Intern
H2App (Start-up for delivery of bottled water and cooking gas)
Florianópolis

Jul 2015 – Mar 2016

- Led the onboarding process for new users onto the company's software, providing comprehensive guidance, training, and support to ensure a smooth transition.
- Actively supported existing users, addressing inquiries, troubleshooting issues, and offering tailored assistance to enhance their experience with the software.
- Analyzed user feedback and collaborated with the product development team to implement feature improvements.

MAIN PROJECTS

Denison Roof Experts Website

- **Technologies used:** PHP for the Backend and Tailwind CSS for the Frontend.
- **Description:** Created a website for a roofing company based in Toronto.
- **Outcome:** Modernized the client's outdated web presence, resulting in improved user experience and increased engagement metrics.
- **Link:** [Denison Roof Experts](#)

The Bugger

- **Technologies used:** Ruby On Rails, Bulma, and PostgreSQL. Deployed on Heroku.
- **Description:** A mock social media platform for developers inspired on Facebook.
- **Outcome:** Implemented features such as authentication, timeline, friending, liking and commenting.
- **Link:** [The Bugger](#)

Age of the Ring: Realms in Exile

- **Technologies used:** LUA, Blender, and Adobe Photoshop.
- **Description:** A mod for Electronic Art's strategy game The Lord of the Rings: Battle for Middle-Earth II.
- **Outcome:** Has over 3200 downloads and nearly 80 people on the mod's Discord server.
